G'day Success Seekers,

I want to show you an absolutely true story that honestly blew my mind when a customer of mine showed me what he did with the Private Label Resell Rights within my Lawn Care Niche. The reason it blew my mind was that it required very little effort to get substantial results in a very small amount of time.

It all started with this email to my previous customers, it went a little bit like this...

G'day Subscribers,

I am just about to release a new site (www.PrivateRights.com/Success)

Before I release this site to the public, I need something from you. I need your success stories. I want to know that I am actually helping people by providing these Private Label Resell Rights packages.

If you have had ANY success selling these products I WANT TO KNOW ABOUT IT. It doesn't have to be big or special; it just has to be completely true and 100% honest. If you can send me a screen shot (I will keep everything anonymous if you want) that would be just fantastic.

And this is what I got for a reply from just one of my customers, have a read of this closely.....

Hi Paul,

Greetings from Singapore!

I'm one of your earlier customers and purchased the Lawn Care Private Rights from you.

Ok... I CONFESS! I DID NOT sell a single copy of your Lawn Care ebook... but that's because I never 'sold' it to begin with. :-)

I used your Lawn Care Private Label material to create a content website.

Along with James Allen's excellent Lawn Care keyword package and our proprietary

keyword research, some SEO and website builder technologies, I hit a HOME RUN in the Lawn Care niche.

Since March 28, 2005 (when the site was indexed by MSN & Yahoo search engines) till today, 6 May, 2005, my Lawn Care site has earned us \$790.50. And ever since Google fully spidered the site on 19 April 05, our daily AdSense earnings have averaged about \$39.

Based on this figure, our Lawn Care site will average \$1000 in AdSense earnings. (BTW, we are talking about USD here :D)

Not bad for a couple hours of work. So, thanks for your research and hard work.

I'd certainly be interested in joining your membership program whenever it launches.

With thanks,

Fabian Lim

Fabian Lim's AdSense Report from April 19 - May 6th, 2005

Page impressions, clicks, clickthrough rate and CPM have been covered to comply with Google's Terms of Service.

This Knocked me out!

Consistently US\$39 Everyday from Just ONE Niche Site!

www.PrivateRights.com/Success

Why did this surprise me? Why am I so impressed? I can hear you saying now “Come on Paul ,it’s ONLY \$40 a day!” The reason it surprised me is that here was somebody who took my Private Label Resell Rights content and turned it into a content site within a few hours and then LEFT IT ALONE. In a few short months, TOTALLY HANDS FREE, he is earning \$40 a day via adsense and this is ONLY ONE site, imagine you can do it with all of the products offered at www.PrivateRights.com/Success.

I have attached the report that got it all started. But I just want to say that Fabian **isn’t a rocket scientist** he just took action and spent the time to create a content site and did what he could to maximize his success. Anybody can do what he did! It just takes action. Anybody could have 5 similar sites within specialized niches that could be each earning you \$40 a day so that is $\$40 \times 5 \text{ sites} = \text{US}\200 a day now that would be nothing to sneeze at, would it? I know I would like to have an extra \$200 a day **hands free!**

I hope you enjoy the report and looking forward to
seeing you inside Private Rights Success

Introduction:

The Lawncare and Landscaping Niche

If there is one thing that almost all homeowners have in common, it's the pride they take in having a well-landscaped and presentable lawn. People spend countless amounts of money to ensure that their yard is in tip-top shape. They hire landscapers, purchase yard and garden equipment, lawn mowers and fertilizers, contract for lawn care services and more.

As it turns out, this niche is also very active online. As my recent research has uncovered, people interested in lawn care and landscaping make literally thousands of searches on the internet every day, looking for related information.

In this report, I will not only reveal the results of many long hours of niche research to you, but I will show you exactly how you can use this information along with the power of private label resell rights to tap into this niche and potentially make some incredible profits now.

Niche Potential Analysis:

Why This Niche is **HOT**.

Please take a look at the following number:

20,280 (twenty thousand two-hundred eighty)

According to my research, that's the average number of times each month people are searching for the term 'lawn care' on the major search engines. Some months are much higher.

Here's another:

24,180 (twenty-four thousand one-hundred eighty)

That's an approximate number of times each month people are searching for the term 'landscaping ideas' online. That's over 800 searches every day on this one term alone!

As you can see, people are very actively searching for information related to this niche online everyday – and believe it or not, these two terms are just for starters.

In fact, at the end of this report, I've included a list of over 1,000 lawn care and landscaping related phrases that receive in total literally thousands of searches every day.

Can you imagine the potential for profit if you had an in-demand product to offer this hot niche, one that provided the answers to the information they are seeking online?

Read on....

How to Profit from this Niche with Private Label Resell Rights:

3 Action Plans to Profit

As we have just seen, the demand for information related to lawn care and landscaping is very high indeed. In order to take advantage of this though, we need to find a way to make money providing the information these people seek.

Better yet, we should find a way to do this that doesn't put us in competition with other websites online providing similar information, but rather allows us to profit even more by complementing them.

The best and easiest way to do this is by purchasing *Private Label Resell Rights* to a brandable info-product or e-book of interest to people in this niche that can be instantly purchased and downloaded online.

When you purchase Private Label Resell Rights to an e-book, you get a license to an already researched and written product you can brand with your own name and market and sell at your own price as though you had created it yourself.

Furthermore, you can set up an affiliate program and offer a percentage of each sale to anyone who helps you sell your ebook. This way, you can potentially have your product selling on thousands of related websites.

What follows are three ways you could combine the lawncare and landscaping keyword research in this report with private label resell rights to a related product and instantly be running your own profitable niche marketing business online.

Action Plan #1

Purchase Resell Rights to a Lawn Care and Landscaping Related info-product and use the keyword list at the end of this report to launch a pay per click campaign.

If you purchase *Private Label Resell Rights* to an info product like Paul Kleinmeulman's offer (www.PrivateRights.com/Success), you'll also get all the graphics, sales copy and auto-responder letters you'll need to instantly create a website to sell the product from. All you'll need to do is register a domain, set up an account to accept payments online with a service such as Paypal or Clickbank and load the files onto your server.

Then, you can purchase cheap traffic via pay-per-click search engines such as Google Adwords, Overture.com or Findwhat.com. Use the huge keyword list at the end of the report to launch your pay-per-click campaign with.

Action Plan #2

Use the lawn care and landscaping keywords in this report to hunt down potential affiliate partners through the search engines.

Once you've purchased your *Private Label Resell Rights* and set up your sales page and an affiliate program through a service like Clickbank.com, use the keyword phrases to do searches online and find other websites offering related information. Contact the webmasters of these websites and make an offer for them to join your affiliate program and earn a percentage of each sale of your product they refer. By doing this you could potentially have hundreds of other websites that are already getting traffic promoting your ebook and making you money!

Action Plan #3

Use the keywords to create your own content rich, search engine friendly website that draws targeted visitors in and introduces them to your product.

This action plan takes a little more effort to implement, but the potential for profit is very high. Basically, what you are trying to do is become your own affiliate.

Choose some of the lawn care and landscaping keyword phrases in list at the end of this report to create a multi-page content filled mini-website around this topic. Look at the keyword phrases to discover exactly the type of information these people are looking for and provide it in your website.

If done correctly, this will create a website that the search engines will like. This in turn will bring targeted visitors to your site. Introduce these visitors to the sales page for the info-product you purchased private label resell rights to.

The 3 action plans above are just for starters. With a little bit of imagination, you can probably discover many ways to combine the power of Private Label Resell Rights with the niche keyword research in the report to quickly and easily create a profit-pulling niche marketing business catering to the lawn care and landscaping niche.

Conclusion

I hope you've enjoyed this revealing look at the lawn care and landscaping niche. Please note that the information and ideas in this report are very time sensitive. Those who are first to put the research revealed here into action will be among the first to profit from their efforts.

With that in mind, if you haven't already clicked on one of the links to Paul Kleinmeulman's offer (www.PrivateRights.com/Success), I would suggest doing so immediately. He has put together an incredible info-product package with **Private Label Resell Rights** for the lawn care and landscaping niche. It not only comes with a completely brandable easy-to-sell e-book, but also includes everything you need to set up a potentially very profitable website including stunning graphics, sales copy, auto-responder letters and more.

I would highly recommend being among the first to take him up on his ridiculously low-priced offer and combine it with the research and action plans laid out in this report. Doing so now will put you on the fast track to profits in this hot niche!
